

Humanitarian Response by CHETNA NGO during Emergency COVID-19 Support generated by Ms. Sarah

The lockdown has affected street-connected families, migrant workers, and daily wage earners the most. And while the Coronavirus doesn't discriminate, the worst impact is on these lakhs of families who come from some of the most marginalized communities and are most vulnerable in this pandemic. The lockdown means they have to go without wages; they depend on donations to meet their everyday basic requirement - food, medicines, and even water. This pushed them further into poverty.

CHETNA NGO provided dry ration packs to **493** families included **1989** children and **1252** individuals with the help of the donation received from Ms. Sarah.

1.1-Total amount 2 Lakh and 50 thousand only.
